This brick house which is located near the south end of the block is 3½ stries high and 3 bays wide, and was built around 1873. It is laid in running bond. The doorway, framed in marble, has a transom. Five steps lead to a stoop before a vestibule and inner door. All the windows except the attic are rectangular, one over one lights with flat-arched brick lintels and marble sills. The slate-shingled Mansard roof which is supported by a substantial cornice, is pierced by two full-arched dormer windows, the surrounds of which appear to be wood. A pavillion effect is evented at the mansard level by curbing and placing the central portion in velice.

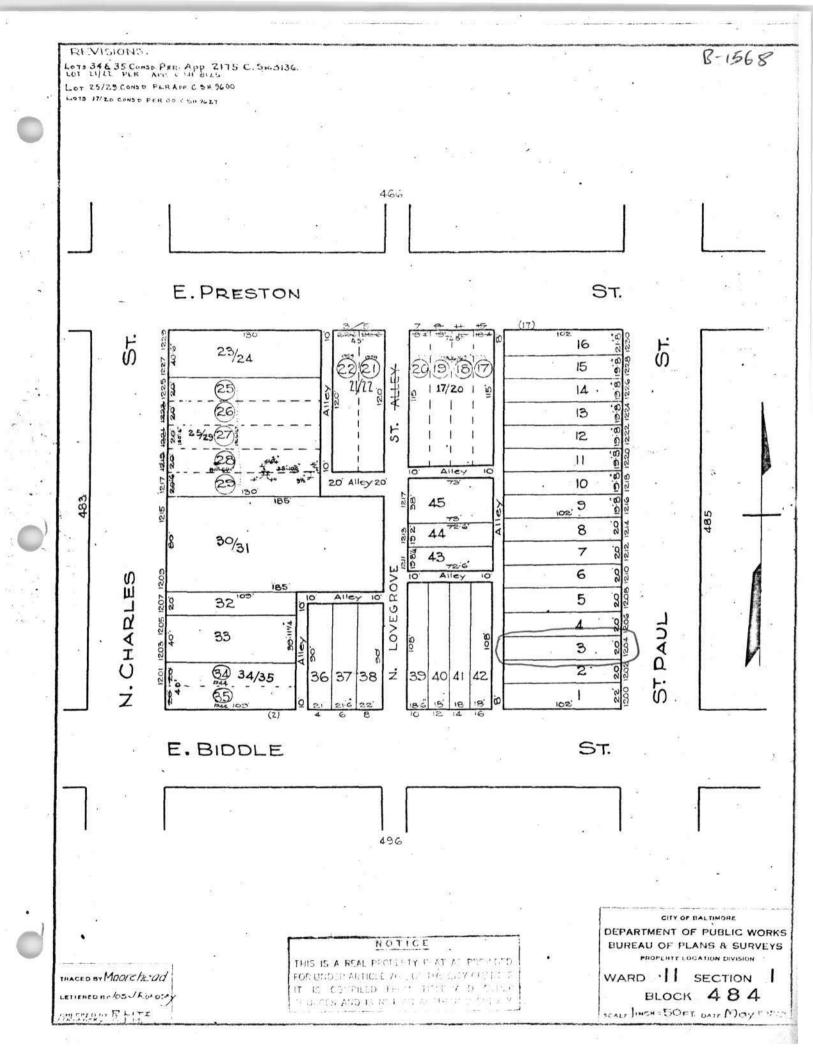

Above the third story windows are recessed brick features which are purely decorative, adding interest to an otherwise plain area.

The dormer windows are double hung with 2/2 lights, Two basement windows puncture the marble ashlar base which supports a projecting marble belt course. The first floor windows above are the tallest on the facade, rising to the height of the entrance openings.
